

2022/2023
Workforce Diversity Plan
Update

What current demographic data, including applicant flow data was collected as an integral part of the barrier identification process data, which was kept separate from an application, as an applicant proceeds through the hiring process?

***The following information is the most recent student demographic for the Xenia Community Schools, followed by a three year comparison of our Certificated personnel based on gender and ethnicity as well as our Classified/Unclassified personnel.

Current Demographic Data:

Total Students in XCS (4,021)
